LILUAH, HOWRAH – 711 204. (W.B.) INDIA.

**LM – 01/2021**

**Dated: 6<sup>th</sup> July 2021**

**Dear Students, Parents and Staff,**

As you know that we are facing challenging times in all walks of life due to the prevailing Corona Virus pandemic. As a result of which we are in lockdown mode for the safety of all concerned. However, life needs to go on, be it business, education, and other spheres.

Now, coming to our area of concern, namely the ITI Training being imparted in Don Bosco Technical School Liluah, we too are trying our level best to continue with our education by conducting online classes in the best way possible in spite of the practical hurdles we face due to poor connectivity and enormous mobile data consumption.

As you are aware that many Educational Boards have cancelled their board examinations as a safety measure as per the restrictions imposed by the government. However, these boards still need to publish results and award certificates to the students on a yearly basis. This is being done by asking the various institutions to provide internal marks of their students on the basis of which the board results depend.

Hence, in keeping with this trend, we too need to conduct regular online classes (which we are doing) and more importantly, need to have regular periodic evaluation of the students by conducting regular online tests. The marks obtained by the students in these tests, along with the sessional marks awarded by the respective teachers on the basis of the attendance of the students in the online classes and their performance in the same, will need to be recorded by the respective teachers and institution, and submitted to the board as and well called for.

Therefore, in keeping with the above requirement, we shall be starting **ONLINE WEEKLY TESTS** which will be conducted by the respective teachers **EVERY WEDNESDAYS AND SATURDAYS AFTERNOON** (after the online classes). **These tests will be of 30 minutes to 60 minutes duration depending on the subject and the matter to be covered. The Online tests will commence from the coming Saturday, 10<sup>th</sup> July, as per the Online Weekly Tests Schedule attached. All the online tests will start at 12.30 pm, tentatively.**

**Students are requested to kindly note that these Online Weekly Tests will be conducted by the respective subject teachers as per their convenience using Whatsapp or Google Sheet, etc. The Question Paper will be posted on the respective Whatsapp group pertaining to the respective subject and teacher. The questions will have to be answered in your note book (preferably) or loose sheets. After that the students are to click pictures of their answers and send to the respective teacher as per the time specified by them. Kindly note that if your work is not submitted on time then the same will not be corrected and you will get zero.**

**Students are requested to write neatly and orderly so that your work can be read easily. Also make sure when taking the photo of your work, you are to position your camera (mobile) vertically above the matter being clicked, that is at 90 degrees and not at an angle. Then if possible, crop your photo to exclude unnecessary area around your work. Students are exhorted to follow the instructions of the concerned teacher of each test regarding the timing and the manner of writing each test. Always read the question paper carefully and answer to the point. Do not copy the questions but make sure to write clearly the question/answer number.**

**Finally, I would like to urge all the students to take these online classes and online tests seriously as your results and your future depend on them. ALL STUDENTS ARE TO MAKE SURE TO PASS ON THIS NOTICE TO YOUR PARENTS.**

All the best. Stay safe and stay healthy. May God bless all your endeavours.
